

## **New Doctors Arriving in Olds**

"I was born in Pincher Creek and went to high school in Brooks. I did my medical school in Edmonton and family medicine residency in the Rural Alberta South program, which I completed this last June. I'm on my way to getting settled in Olds (currently in the market for a house) and am very excited to be here."

Dr. Kimberly Dyken

---

"I am Marnel Auret, a family physician from Bloemfontein, South Africa. I grew up in Bloemfontein and studied medicine at the University of the Free State (UFS). I graduated from med school in 2006 and then did my two year internship rotating through most of the hospitals in Bloemfontein. In 2009 I did a year of community service and stayed on at the same hospital as a medical officer in 2010.

I got married to Hendrik Auret in September 2007. He is an architect, originally from Upington in South Africa, and we studied together at UFS.

We moved to Olds in September 2010, and I joined the Wild Rose Medical Centre in mid October.

We are settled in Olds and I am happy to practise as a physician here and to serve the community."

Dr. Marnel Auret

"I am Dr. Martha Ingles. Although I was born in India, very few people realize that, as my parents were only in India for a year. We returned to the farm southeast of Wetaskiwin when I was 6 months old and where I grew up until I left to attend school. I first completed a year of bible school in Edmonton, Alberta, and then went on to study physiology at McGill University in Montreal. After living out there for 4 years I returned home and attended the University of Alberta Medical School from 2004-2008. I then moved to Medicine Hat, AB where I did my residency in rural family medicine based out of the University of Calgary. I was married in May 2010 and I completed residency in June 2010. I loved growing up in rural central Alberta, and look forward to being a doctor in Olds!"
