

Mountain View Power

Olds Institute for Community & Regional Development

Supporting Our Community, One Kilowatt at a Time

Mountain View Power is a local energy retailing business owned by the community and managed by Olds Institute for Community & Regional Development (OICRD) that provides electricity to homes and businesses located in the Central Alberta Mountain View County Region. **Now you have the option to purchase your electricity from Mountain View Power at competitive rates and support your community all at the same time.**

Competitive Rates

No Contracts

No Cancellation Fees

100% of the profits go to the Olds Institute. The Olds Institute uses these funds to support projects and programs in the community. The criteria for projects or programs that will receive financial support will be those that encourage, initiate and facilitate community and economic development through the incorporation of the five dimensions of sustainability – social, cultural, environment, economy, and governance.

- To date, **Mountain View Power** has contributed \$20,000 to the Olds Institute.
- **Mountain View Power** customers are reporting an average savings of 5% per year over the regulated rate.
