

Why Choose Mountain View Power

Community: You have to buy your power somewhere; Mountain View Power (MVP) is part of the Olds Institute for Community and Regional Development (OICRD) and exists to provide funding to support community initiatives to help the community grow. Last year electrical providers made millions in Alberta, but what percentage was spent on the community? MVP exists only to be:

"Supporting Our Community, one kilowatt at a time"

Your Support Counts: Within the last six months the average MVP customer has contributed \$85 towards community initiatives, thereby reducing the burden on the taxpayer...and saving money on their power bills. Imagine if every business and every home used MVP within our community: the profits would stay local and be used to help grow OUR community. You have to buy your power somewhere!

"Supporting Our Community, one kilowatt at a time"

Pricing: At MVP we only add 1.5 cents per kilowatt hour to the wholesale rate. MVP pricing was developed to support the notion that we can all be:

"Supporting Our Community, one kilowatt at a time"

Options: Most homeowners have a mortgage and in that financing you have two options: fixed or variable. Under a fixed rate mortgage you and provider agree on a rate for a term, while in a floating rate mortgage you pay the prevailing rate of interest. Electrical power is no different, rates fluctuate and you can choose to accept variable cost of electrical power. Alternatively a fixed rate allows for a more predictable cost each month at a small premium.

MVP was formed on the basis of a floating rate pricing. Now we can offer a fixed rate in addition to our floating rate pricing. Either choice allows MVP and you to be:

"Supporting Our Community, one kilowatt at a time"

No Contracts: Join anytime, and if you wish to terminate you can leave on 15 days notice: NO PENALTY! There is no startup cost at MVP and there is no exit fee should you choose to go elsewhere. Together we can all be:

"Supporting Our Community, one kilowatt at a time"

Paperless: We're Lean MVP is environmentally friendly. You get bills by email even when Canada Post is on strike. Payments are by direct deposit. You have time to review the charges before the payment comes out. This is how with your assistance we are all:

"Supporting Our Community, one kilowatt at a time"

It's Easy!

1. Get your void check
 2. And past power bill
 3. Go to www.mountainviewpower.com and click sign up
